

The Labour Campaign for Council Housing Membership/ Affiliation Form

The **Labour Campaign for Council Housing** is a Grass-roots campaigning organisation. We believe that council housing must play a central role in the resolution of the housing crisis and the government’s strategy for meeting the country’s housing needs. We seek to influence Labour Party policy at local and national level to ensure that the council homes that our communities need are funded and built. We also aim to ensure that Labour in opposition calls the government to account for its failure to deliver the homes we need and calls on the government to address that failure.

The **Labour Campaign for Council Housing** welcomes new members who support our aims and want to help us to achieve them.

Annual membership rates for individuals and groups (minimum donation) are set out below :
